

Request for Expression of Interest (EOI) / Quotation

Project Title: The Improved Sanitation Through a Truck-Mounted Road Sweeper project

Introduction: - IICARE Foundation is a non-profit organization working towards sustainable development, climate action, and community well-being. As part of its sanitation and environmental sustainability initiatives, the Foundation proposes to improve road cleanliness and public hygiene in Baramati, District Pune, through the deployment of a Truck-Mounted Road Sweeper. Rapid urbanization, increasing vehicular movement, road construction activities, and weekly market waste have led to significant dust accumulation and roadside pollution in Baramati and surrounding rural areas. Existing manual cleaning systems are insufficient to manage these challenges effectively. This initiative aims to introduce mechanized road sweeping to enhance efficiency, reduce dust pollution, and improve overall sanitation conditions.
